Medtec Japan 2020 to be Held as Scheduled

Information about new coronavirus

UBM Japan Co., Ltd., has been carefully following developments related to the outbreak of the coronavirus infection in Wuhan, China, in December 2019. In preparing for the Medtec Japan 2020 exhibition we will take all precautionary measures and safeguards recommended by the Japanese Ministry of Health, Labour and Welfare and the World Health Organization (WHO), and we are working in full cooperation with the management of Tokyo Big Sight Exhibition Center. On this basis, Medtec Japan will take place as scheduled on 16-18 March 2020.

Precautionary Measures to be Implemented at the venue:
・ Installation of hand disinfectant dispensers
・ Installation of precautionary signage and instructions
・ Participants to be encouraged to wear masks and to wash hands
・ Installation of first aid room with a nurse in attendance

Note: Chinese companies and personnel from Hubei and Zhejiang provinces, which are currently barred from entry into Japan by the Japanese Government, will not be able to participate in the exhibition.

According to the latest statement issued by the Japanese Ministry of Health, Labour and Welfare, the new coronavirus infectious disease is not recognized as an epidemic in Japan. The Ministry emphasizes the importance of hand washing, observing proper cough etiquette and taking measures to prevent infectious diseases.

Exhibitors and visitors are encouraged to wear masks and wash their hands when participating in this event.

In addition, if you have symptoms such as fever of 37.5 degrees or more, a cough or have traveled to China within two weeks, please consult with a medical institution in advance and refrain from participating. Thank you very much in advance for your understanding and cooperation.
